"The Dollars of the Daddies"

You know how hard they were earned, how carefully they were husbanded, how judiciously they were invested.

The dollars grow into hundreds, the hundreds into houses, into farms, into wise and profitable business investments. These "dollars of the daddies" are the basis of our present prosperity. They were not fured into speculation, or into risky investments. The "daddies"

demanded security and accepted the returns absolute safety gave. What about your dollars? Are they absolutely safe? Make them so by starting an account with this institution at once and allow your mind to be relieved from all attendant worries occasioned by questionable financial deals.
